10. Life on Campus

The campus at BIT Mesra is a microcosm of a world in itself. It is not just enough to say that students find here a home away from home, for campus life for a BIT-ian is definitely a lot more. It is actually an involved experience, the essence of which becomes the steering force for many BIT alumni in the years thereafter - in other words, it's simply great!

One can feel the transition palpably the moment the University grounds are entered. The proximity of two rivers makes the sprawling green campus even more beautiful and an idyllic option for youngsters to hang out in. It is almost surprising how the campus is always alive with activity long outside the 'toil and trouble' induced by a comprehensive academic curriculum.

BIT's academic programs are conceived with industry needs in mind and are constantly evolving with every advancement in respective fields. The campus is equipped with state-of-the-art central facilities including an extensive library that is a model in its kind. Apart from these each department is supported by lecture halls, research and training laboratories, workshops and other learning facilitators.

Being a fully residential campus, living and learning go hand-in-hand at BIT Mesra with a wide array of co-curricular activities, hobbies and interactive clubs and societies to choose from. The surest way to merge naturally with BIT's close-knit community is to participate in its proactive social forums and programs that cater to diverse interest groups. In addition to day-to-day events, BIT also holds annual fests on an extravagant scale that are very famous and popular with contemporary fest-hopping crowds.

Students Clubs and Societies

Students Clubs and Societies constitute the core of BIT's campus experience and reflect the quality of excellence outside academic spheres. They serve as common forums to share and promote resources in diverse areas of interest.

Student activity hubs enhance learning by developing valuable personality traits and skills that aid their classroom training. While some bodies provide a strong platform to budding professionals for applying their classroom learning, others are vehicles for showcasing talent and connecting like-minded people. Students clubs and societies are also an excellent platform of interaction between existing students, eminent alumni and professionals in related areas of interest and of building networks while exploring career opportunities.

BIT students also represent world-renowned organizations like UNESCO, SPIC-MACAY and ROTARACT and are proactively involved in their activities.

Whether it is a casual face-off between friends, intra-college championships or inter-college tournaments organized on a grand scale, students of BIT have proved their worth in the field of sports time and again.

The Department of Physical Education and sports regularly organizes training camps and courses and is well equipped with appropriate facilities.

BIT's Games and Sports Complex includes:

- Gymnasium
- Stadium for Track & Field events

Campus Facilities

The well-appointed campus facilities at BIT Mesra serve the manifold needs of BIT community life. It is accepted here that exploring the full potential of student life needs to incorporate parallel methods of learning with provision for complete self-expression.

BIT Mesra is a fully residential campus, providing accommodation to approx. 3200 undergraduate and postgraduate students and 2000 members of the faculty and staff. The main building accommodates lecture halls, research and training laboratories, library, administrative offices etc. covering an area of 30,000 sq. mtrs while the workshop annexure has a covered area of 4,000 sq. mtrs. The laboratories and offices of the Department of Space Engineering & Rocketry comprise a sub-campus that is some distance away from the main building for reasons of security.

The campus has vast expanse of green dotted with facilities for cultural, recreational and sports activities. The campus is in every sense a melting pot for diverse interests, influences and cultures that blend to create the unique strength that represents BIT Mesra.

Residential Campus

The Institute is completely residential with eleven hostels for boys and three separate ones for girls. All student lodging houses are spacious and beautifully laid out amidst a lot of greenery.

Each male-student is provided with well-furnished single-accommodation while girls share their accommodation in spacious and adequately furnished rooms. Individual rooms are constructed in a row with a wide veranda for common use running along the length of passage. Common facilities at the hostel include dining halls and common rooms with provision for several indoor games. The reading room in each hostel subscribes to a large number of magazines, periodicals and newspapers. The entertainment hall in each hostel has a colour television set. Each hostel has an independent mess, completely run and managed by the students themselves.

The hostels are a hub of leisure activities. Students are encouraged to pursue a wide range of extracurricular activities and hobbies in their free time and events both entertaining and competitive are arranged quite frequently. Inter-hostel tournaments of indoor and outdoor games, quizzes, competitions and adventure trips are very popular at BIT Mesra.

The 'Hostel Night' organized by resident students is a memorable yearly event where students interact with the faculty members amidst cultural programs and a lot of fun in a shared mood of festivity.

Other Facilities at the BIT Campus

In addition to on-campus hostel arrangements, students have access to plenty of facilities for learning, recreation as well as sports activities within the grounds of BIT Mesra. The stately campus is self-contained in every sense with well-thought out provisions appointed for every need of the campus residents, be it the students, faculty or other staff members.

Facilities include two auditoriums that can accommodate as many as 2,500 people. This is an ideal venue for cultural events organized by the student community. The Institute has a well-appointed Gymnasium, indoor game facilities and extensive playgrounds for pursuing various outdoor sports. The campus also has two canteens and several other eating options within the premises. As young people mostly prefer to hang out in groups, all the campus eateries are very popular gathering zones. In addition, the Institute maintains three Guest Houses for accommodating guests appropriately.

The Campus has a Shopping Complex and consists of the Co-operative Stores in addition to the stationery shop, tailoring units, cafeterias etc. These provide for the daily requirements of the campus of nearly 5,000 residents. The construction of a full-fledged Marketing Complex and Cooperative Book Store to meet the growing needs of the Campus has recently been completed. Apart from this, the campus also houses a railway reservation counter and post office for the benefit of the residents.

Significant is the on-campus dispensary that provides for several diagnostic procedures and preventive & curative treatments. Emergency cases that require more specialist attention in intensive care facilities are referred either to the local Rajendra Institute of Medical Sciences, Ranchi or to Apollo Hospital Erba, also in Ranchi. A Doctor from the campus Health Centre accompanies the patient in case of an emergency. The Institute maintains a liaison with the doctors of these two hospitals. The campus Dispensary-cum-Health Centre also provides free treatment and supply of medicines to residents of local villages in the region.

The Institute at Mesra is located in a spacious green campus. There are small forests with a large number of trees - mostly sal trees which are native to Chotanagpur. These sal trees and a number of other trees and plants have their flowering season during mid-February to early April, and this sometimes leads to a large pollen content in the air. It has been noted that some people who are allergic or susceptible to pollen from these sal trees / other plants may develop some health problems / breathing problems or their existing problems may be aggravated during these weeks, as also during some other months of the year when other plants flower. Thus, such candidates who are known to be sensitive or susceptible to pollen from trees or other plants are required to get allergy tests done / take advice from their physicians / a specialist before taking admission at Birla Institute of Technology, Mesra, Ranchi.
